

OSA 1977-64

16 April 1964

MEMORANDUM FOR: Chief, Programs Staff, OSA

SUBJECT: OSA Activity Report

REFERENCE: Subject Report for March

1. Request that this office be included for coordination on subject report in the future. Suggest that such coordination be accomplished on draft copy in order that any changes which may be desired will not necessitate rework of final report.

2. Several items reflected in the referenced report were not current and therefore inaccurate as of date of report. I believe a review by this office can preclude making such mistakes - at least to a better degree than formerly. In addition, since a big majority of the content reflects areas of responsibility assigned to the D/FA, requested coordination is obviously a proper procedure.
